**Last Known Address Of The Omitted Inventor**

Name of omitted inventor: Enrique Malaret  
  
Last known address: 4935 Balsam Lane North  
Plymouth, MN. 55442

**Details Of Efforts To Reach Omitted Inventor**

1. The omitted inventor, Enrique Malaret, signed a Consulting Agreement with Assignee Boston Scientific, Scimed, Inc, (Scimed Life Systems Inc.), on December 20, 2000, wherein Mr. Malaret acknowledged that he would aid the Assignee in filing patents or obtaining other protection on any ideas, inventions, improvements or suggestions arising from his performance as a consultant to the Assignee.
2. The subject matter of the above identified Application as well as related Applications 10/084,766 and 10/083,707 arose in part from Mr. Malaret's performance as a consultant during the term of the Consulting Agreement.
3. Following the filing of the present Application, I received a Notice to File Missing Parts under 37 CFR 1.53(b) mailed April 3, 2002 requiring the declaration of the inventors by June 3, 2002, or later with a petition for extension pursuant to 37 CFR 1.136(a).
4. On May 1, 2002 I sent to Mr. Malaret and a copy of the Application, including the specification, claims and drawings as filed, for his review. Along with the Application, I sent Mr. Malaret an Assignment, Declaration and a letter requesting that he sign the Declaration and Assignment that I had included therewith. Upon hearing no response by the date I had requested, I sent Mr. Malaret follow-up letters on May 23, 2002, and June 4, 2002.
5. Shortly after the letter of June 4th was sent by certified mail, I was notified by an attorney who claimed to represent Mr. Malaret that due to an existing disagreement between Mr. Malaret and the Assignee, Mr. Malaret was refusing to sign the Declaration or Assignment.
6. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
